About Our Company

Fire Bee Techno Services Pvt Ltd works on blockchain solutions to build new platforms that help different industries remove old traditions and grow better. We offer a new path for firms to improve how they work and plan their future. Our web3 services focus on business operations and save time for long-term growth.

CHAIRMAN

Ms. Priya Balan is the CEO, Founder, Managing Director, and Chairman of Fire Bee Group of Companies, where her presence influences every major direction the company takes. Decisions that shape the company's growth are taken charge through her careful view shaped by years of understanding both people and markets. She brings structured thinking across web3 and blockchain technology, global marketing, and strategic business movement. She carries the roles of investor and mentor by steadily raising new talents into future business leaders.
